Paragon Connect is a new core design concept for us to develop from and realize our vision for a modern, mobile, and responsive interface that reimagines the commonly used Paragon functionality and workflows. Currently Paragon Connect is in its mobile-lite stage. We invite you to check it out on your Paragon Log-in screen!

PARAGON CONNECT vs PARAGON MOBILE vs HOMESNAP HOMESNAP

Homesnap Pro is Paragon's native app solution (meaning you don't access it via a browser) for real estate professionals.

The **PARAGON MOBILE** application has been the mobile solution for interacting with your Paragon data while using smart phones and other mobile devices.

PARAGON CONNECT will be the new, upgraded replacement for Paragon Mobile; however, Paragon Connect with its brand new, modern design and rich features offers much more.

Like the legacy Paragon Mobile product, Paragon Connect is a web-based solution, meaning you do not need to go to the Apple App Store or Google Store to download a native app. You simply open the browser on your smart phone, tablet, or desktop computer to access it. The similarities between Paragon Connect and Paragon Mobile stop there!

**Work where you want,
how you want,
when you want.**

NEW! Paragon Connect Features:

100% Responsive

Whether you're on-the-go or in the office, Paragon Connect's responsive design ensures it displays the right-size for your device.

SAME DATABASE

Utilizes the same data from Paragon. Any changes made to Paragon Connect will also show up in Paragon and vice versa.

DEVICE OPTIMIZED

Optimizes visuals based on the size of your resolution, enabling you to have access to even more features and functions based on the device you are using.
