Benefits of TrustFunds:

- TrustFunds is available for all listings in the MLS
- No more driving around to pick up a paper check
- Improved Security
- Simple and convenient for you AND your client
- Real-time payment status tracking

AT RANW
Wed, March 18th, 2020
9:00am-10:00am
11:00am-12:00am
1:30pm-2:30pm
 with time for Q&A

Wondering how electronic earnest money works?

Electronic Earnest Money in 3 simple steps
Save time, increase security, and view real-time tracking throughout the earnest money process.

STEP 1

Click TrustFunds link on the MLS Listing

On the MLS listing details page, click the TrustFunds link to be automatically signed in.

STEP 2

Select the account where the Earnest Money will be held

You'll be presented with a list of Brokers and Title Companies who have registered for TrustFunds (so be sure to register!).

Agents will select the Member noted in their purchase agreement.

STEP 3

Enter Buyer's Information

All you need is the buyer's name, email address, and the amount of earnest money to be paid. TrustFunds will notify your buyer automatically and provide access to submit their payment through our secure portal.

Founder of TrustFunds,
Lynn Leegard,
will be visiting RANW MLS
WED, March 18, 2020
to share more information.

Throughout her career, Lynn has held roles like Edina Realty's General Council, a broker, Minnesota Association of REALTORS President, and currently serves on the Financial Committee of the National Association of REALTORS.

Lynn saw the security vulnerabilities of the paper check – from agents holding buyer's banking information to not being able to track the status of the payment. Lynn also saw time being wasted by driving across town to pick up paper checks and driving to the bank to deposit them. There had to be a more secure and convenient way to process earnest money, but there wasn't. Then, TrustFunds was born.
